Points4Prayer

Sudan is a country where the government only let's people have one language and one religion – Everybody must be Muslim there. Lots of church buildings have been demolished and church leaders are arrested when they say that Christians are being treated unfairly. You can find out more here:

Praise God that he hears and answers the prayers of his children in Sudan.

Thank Him that organisations like Open Doors are able to help train leaders for the churches and support Christians who need help.

Ask Jesus to change the hearts of the Leaders in Sudan so that Christians can be free to follow him there.
